

Printing CD/DVDs with a single printer is time consuming, and changing media manually often is not acceptable. This situation requires printing systems to be fully automated and unattended. Zeus Series Printer Autoloaders offer a professional solution to your printing demands.

The Zeus Printer Autoloader is a fully automated printing system which does not require an existing PC, but has its very own computer built inside the system. The Zeus series printer autoloaders can be configured from 220 disc capacity up to 900 disc capacity (depending on the printer) including all the disc printers we carry, making for a very cost effective machine to complete any DVD or CD Printing job.

- Up to 900 disc capacity (select models).
- Smartest-Fastest-Strongest Duplicators.
- 3 year warranty on the autoloader, industry-leading.
- Fastest loading/unloading system in the industry.
- Works 24/7 without interruption.
- Mechanical picker that doesn't pick up multiple discs.
- Optional business card (oval) and 80mm mini disc adapter.
- Exchangeable inkjet or thermal printers.
- Removable Hoppers (select models).
- Networkable.
- Shipped in multiple boxes: one for the autoloader, one for printer, making it easy for shipping and service.
- Small footprint and simple design.
- Fast and quiet autoloader.
- Excellent technical support; most of it done by phone.
